#### Updates:

- ODC's consultants are working on a scoping assignment for **ICOMP** in Liberia, Malaysia, Thailand, Pakistan and Bangladesh. Main theme: **Capacity Development**. Recently one of our consultants returned sharing her experiences on the visible signs of war and the situation of human resources in the administration in post-war Liberia.
- A team of ODC consultants is working for **READ-Global** and **READ Nepal** to understand the **effectiveness** which READ has accomplished in the Community Library Resource Centres in about 40 libraries in Nepal. We have learned much from the creativity and ownership that people have over 'their' CLRCs
- Our senior consultants are working on a **research** for **International Development Studies**, Sussex on the use of Information Technology among policy makers in Nepal. To model the research, we make use of ICT to gather and analyse data.
- We are in the process of developing an Action Plan together with **Aarohan Theatre** and the **Nepal Music Centre** for **Capacity Development**. We are exploring methods and tools that fit these artistic organisations best. The **Royal Norwegian Embassy** has requested us to work with both socially engaged organisations.
- We are also extensively involved in the **Monitoring and Evaluation** of a programme implemented by **ABA-ROLI**. We are focusing on the learning and the development of capacity for various legal and civil society organisations engaged with forensic investigations.
- We are also pleased to have **facilitated** for the **US-Embassy, Good Neighbours Nepal**, and to conduct a number of **trainings** for the development of people and organisations. Amongst these is a **Salary Survey** for the **International Maize and Wheat Improvement Centre** (S-Asia Regional Office)
